

Z-Wave® Dimmable LED Light Bulb

SKU: LB60Z-1

UPC: 0-93863-13299-5

We're pleased to announce, to all Linear and 2GIG distributors and dealers, the newest addition to Linear's family of Z-Wave® certified wireless lighting, security, and control products. The LinearLinc™ BulbZ is a Z-Wave controllable and fully-dimmable, instant-on LED screw-in light bulb that provides pleasant soft-white illumination. Equivalent to a 60-watt incandescent bulb and using only nine (9) watts of energy, BulbZ is estimated to save approximately \$140 (USD) throughout its average lifespan*.

Bulbz

As with all Linear Z-Wave products, BulbZ operates at the standard 908.42 MHz frequency, gives users the convenience of wirelessly controlling lighting from a Z-Wave hub or controller, and lets users program scenes to create comfortable, inviting lighting settings to suit a variety of occasions and moods.

FEATURES

- Wirelessly control the bulb from anywhere (requires Z-Wave Apps for iOS or Android)
- Turn the bulb ON, OFF, or use its dimming features to adjust to 100 levels of brightness
- Acts as a wireless repeater to extend the Z-Wave mesh network to cover longer distances
- Integrates with other Z-Wave certified products from Linear and 2GIG by Linear

SPECIFICATIONS
